To Whom It May Concern:

I am pleased to offer this letter of recommendation on behalf of Kern Pacific Construction Company.

The present and past Management here at North of River Sanitary District has been very satisfied with the quality of work and professionalism demonstrated by Kern Pacific on the various projects that have been completed within the District. Furthermore we consider Kern Pacific Construction Company to be one of the "top tier" companies specializing in underground construction here in Bakersfield and Kern County.

Kern Pacific's expertise in this field has been well demonstrated in many deep and large diameter pipe sewer projects, manhole construction, working within "right of ways" and in "dig and lay" pipeline projects requiring trench box utilization.

Therefore, without hesitation or qualification, I recommend Kern Pacific Construction Co. for consideration in any future underground construction project.

Sincerely,

John C. La Mar
District Manager
