DR. DENNIS SCOTT
Associate Superintendent, Business

September 17, 2008

To Whom It May Concern:

I John Fox, Assistant Director, Maintenance and Operations, Kern High School District, would like to recommend Kern Pacific Construction Company unequivocally. They just completed a sewer line replacement at North High School on time and under budget. I have been in an Administrative role for the past 16 years handling numerous construction projects totaling in the millions of dollars. My impression of Kern Pacific Construction Company they are one of the top companies I have worked with in my tenure.

Kern Pacific Construction Company possesses many exceptional qualities I have observed. The first quality they possess is leadership. They are very organized throughout their organization, handle their sub-contractors very well and keep the project on track.

The second quality they possess is organization. From a very professional Administrative office staff to a well trained field staff puts them ahead of most like contractors.

Another quality they possess is following up. If there is a question or a request for information (RFI) on the project they answer it with haste. They see the project all the way through completion and as-built documents.

In conclusion, I want to confirm as of this date, you will not be disappointed in your selection of Kern Pacific Construction Company. In my opinion, they are one of the most desirable companies to use and work with in this field of construction. Please contact me personally @ 661.827.3181 for any additional information or with any questions.

John Fox

Assistant Director, Maintenance and Operations, Kern High School District
